Mr. S. Rahaman has completed Doctor of Physiology with a specialization in Farm Machinery and Power Engineering from Acharya N.G. Ranga Agricultural University. He has published 17 research articles, 4 popular articles, and one review article in national and international journals with NAAS ratings and Scopus index. He has attended 3 national conferences and received a gold medal for best M.Tech research project. His major research area of interest is precision farming technologies for farm equipment and machinery. Presently, he is working in the research area of plant disease detection using convolutional neural networks.
